Submit An Abstract Today

Participation as a speaker in CCAI's FINISHING TECHNOLOGIES Conference at FABTECH

- Helps further CCAI's mission to provide education and information to manufacturing
- Provides exposure for your company as an industry leader
- Allows you to share your wealth of information to better manufacturing processes
- Provides networking with industry peers
- Increases exposure for your exhibit booth on the show floor
- Provides you with a complimentary conference registration to all educational sessions
- Introduces you to new customers. Your name and company will be listed with the title of your presentation on the show website, CCAI's website, in the promotion brochure mailed to more than 50,000 industry professionals and in the Official Show Directory.

CCAI is in the process of developing it's FINISHING TECHNOLOGIES Conference program. We are creating a diverse program that touches on all finishing processes. We will develop a series of two hour sessions that will be a variety of presentations, panel discussions, Emerging Technologies mini-presentations, Tech tours (see next page for details) and more! Please note that all sessions other than the Emerging Technologies MUST be non-commercial. Emerging Technologies must be focused on products new to the finishing market since Jan. 1, 2010. Speakers whose abstracts are accepted agree to submit a presentation for the conference proceedings by August 15, 2010.

Review our suggested submission topics on the next page or develop your own and submit your abstract TODAY!

FINTECH Pavilion exhibitors and CCAI Corporate members will receive priority consideration for participation on the conference program.

Click Here to Submit Your Abstract

Deadline to Submit an Abstract is February 26

Suggested Conference Topics

- Emerging Technologies (15 min commercial presentations)
- Environmental Compliance Update
- Modern Pretreatments
- Best Practices in Liquid Finishing
- Best Practices in Electrocoating
- Best Practices in Powder Coating
- Introduction to Plating Processes
- End User Case Studies
- Unique Challenges for the Custom Coater
- Quality Measurement & Testing
- Nanotechnologies - Pretreatment; Coatings
- Innovations in System Design
- The Basics of Finishing
- Evaluating Coating Options
- Best Practices in Electrocoating
- Troubleshooting Your Finishing System
- Troubleshooting Roundtable
- Careers in Finishing
- UV Coating Technology
- Running an Energy Efficient Finishing System

Be creative and submit your own topics and ideas!

Tech Tour Session

This unique opportunity is open only to exhibitors that have an operational equipment demonstration in their booth on the show floor. You and up to two other exhibiting companies may offer an educational technical session that begins in the conference room with technical instruction and then moves to the show floor and your booth for demonstrations & hands on opportunities. There is no charge to participate in this session but the lead company must have a demo in their booth on the show floor. [LIMITED AVAILABILITY](#)
